Target Audience: Urban Indians 22–42 • Health-conscious professionals • Fitness beginners • Working parents

1. Target Audience & User Personas

Exactly kisko target karna hai — unki language mein, unke channels pe

1.1 Primary User Personas			
Raj — The Urban Professional (Primary Target)			
Age:	28–35	City:	Bangalore/Pune/Hyderabad/Delhi NCR
Pain:	Eats outside 2x daily, sitting job, high stress, puts on weight easily, 'I'll start tomorrow' mindset		
Channel:	Instagram (Reels), YouTube Shorts, WhatsApp from friends		
Hook:	'Scan your thali and know exactly what you ate — in 5 seconds'		
Priya — The Health-Conscious Mom (Strong Secondary)			
Age:	30–40	City:	Tier-1/2 cities, working mother
Pain:	Worried about family nutrition, kids eating junk, husband skipping medicines, no time for doctor visits		
Channel:	WhatsApp groups, Instagram, YouTube		
Hook:	'Track your entire family's health from one app — medicines, meals, everything'		
Arjun — The Fitness Beginner (Growth Segment)			
Age:	22–30	City:	All tier-1 cities, gym-going
Pain:	Goes to gym but doesn't track nutrition. Doesn't know if he's eating enough protein		
Channel:	YouTube fitness channels, Instagram gym content, Reddit r/india fitness		
Hook:	'Your complete fitness tracker — made for Indian diet, not American gym culture'		
Sunita — The Blood Donor / NGO Worker (Community Angle)			
Age:	25–45	City:	Across India
Pain:	Wants to donate blood but no easy system. Sees blood emergency requests on social media		
Channel:	WhatsApp groups, Facebook, Twitter/X for emergency share		
Hook:	'Register as blood donor. Get your Aorane Health ID. Be a hero when it matters.'		

2. Instagram Strategy (Primary Channel)

Reels se viral growth • Carousel se saves • Stories se engagement • Zero budget

2.1 Content Pillars (What to Post)

🍽️ Food Scan Demos (40% of content)

- ! Before/After thali scan — '200 cal ya 800?' reveal
- ! Street food scan series — 'Woh vada pav actually kitna healthy hai?'
- ! Office lunch scan series — 'Canteen food reality check'
- ! Sabzi/roti/dal nutrition — 'Ghar ka khaana health meter'

🇮🇳 Indian Health Facts (30% of content)

- ! 'Why masala chai is actually healthier than you think'
- ! Myths vs Facts — 'Ghee bad hai? Science kya kehti hai'
- ! Micro-nutrition — 'Iron ki kami? Yeh 5 Indian foods khao'
- ! Seasonal tips — 'Monsoon mein yeh mat khao — yeh khao'

👤 Transformation Stories (20% of content)

- ! User health journey (with permission or created persona)
- ! 30-day challenge results — before/after health score
- ! Family story — 'Humne poore family ka health track kiya 1 month'
- ! Blood donor story — 'Mein Aorane se joined, 3 months baad pehli donation'

📱 Product Feature Highlights (10% of content)

- ! Aorane ID card reveal — 'Mera health passport ready hai'
- ! Health score reveal — weekly score ke saath 'kya lagta hai?'
- ! Feature tutorial Reels — 30-sec feature walkthroughs
- ! B2B angle — 'Did you know your company can track your team?'

2.2 Reel Formats (Copy This Formula)

🎣 Hook Formula for Every Reel (First 2 seconds decide everything)

- SHOCK: 'Yeh biryani tumhe 1200 calories de rahi hai — ek step bhi nahi chalo barabar'
- QUESTION: 'Kya tumhe pata hai aaj tumne kitna protein khaya? 90% Indians ko nahi pata'
- REVEAL: '[Plate photo] ! Scan karte hain ! Nutrition reveal' — curiosity gap
- CHALLENGE: '7 din ka health challenge — join karo aaj. Comment '7' agar interested ho'

🤖 AI PROMPT: Instagram Reel Script (30 seconds) — Food Scan Demo

Write a 30-second Instagram Reel script for Aorane Health app.
Topic: AI Food Scan feature – scanning a plate of chole bhature

The Reel should have:

- 0-2 sec: Hook line (shocking stat about chole bhature calories)
- 2-15 sec: Screen recording narration (describe what to show on screen while scanning)
- 15-25 sec: Nutrition reveal moment + reaction + explanation
- 25-30 sec: CTA – "Link in bio to download free"

Style: Conversational, Hinglish (60% Hindi, 40% English), friendly tone like talking to a friend
Include: Suggested on-screen text overlays and emoji placements
Include: Background music suggestion (trending audio type)
Target: Urban Indian 22-35 year olds

3. YouTube Shorts + Long-Form Strategy

India ka 2nd biggest search engine — health queries yahan sabse zyada aate hain

3.1 YouTube Shorts (0–60 sec) — 3 per week target

- "I scanned every meal for 7 days — yeh hua" ! Personal experiment format. Highest watch time.
- "Yeh 5 cheezein khao, diabetes risk 40% kum karo" ! Tips format. High search traffic.
- "Street food scan series" ! Ep 1: Golgappa, Ep 2: Vada Pav, Ep 3: Pav Bhaji — serial content = subscribers
- "Ek mahine mein 4kg kaise kamaya — bina gym" ! Transformation mini-series. Very high CTR.
- "Blood group B+ ke liye best Indian diet" ! Niche targeting. Very shareable in own community.
- "App demo: 30 second health report" ! Product discovery. Converts viewers to downloads.
- "90% Indians iron deficient hain — yeh khao" ! Educational hook with Indian solution

3.2 Long-Form YouTube (8–15 min) — 2 per month target

- "Mein 30 din tak Aorane use kiya — honest review"**
Founder ka personal journey video. Shows authenticity, drives downloads. 8-10 min.
- "India ka complete health tracking guide 2025"**
SEO gold. Ranks for 'health tracking app India', 'best health app India'. 12-15 min.
- "Corporate wellness kya hota hai — HR Manager guide"**
B2B awareness via B2C channel. HRs also watch YouTube. 10 min.
- "Blood donation in India — Complete guide 2025"**
Targets Aorane blood bank feature. High social sharing. Evergreen content.
- "Indian diet aur weight loss — science based guide"**
High search volume. Positions Aorane as health authority. 15 min.

3.3 YouTube SEO Strategy (Organic Discovery)

- Hindi keywords to target in titles/descriptions**
 - "Health app India" (18K monthly searches) — "Best free health app India 2025"
 - "Indian diet plan" (45K monthly searches) — tie every video to Indian food
 - "Blood donation near me" (22K monthly) — Blood bank feature content
 - "Calorie count Indian food" (12K monthly) — Food scan demo videos
 - "Weight loss for Indians" (55K monthly) — Transformation content
 - "Health tracking app Hindi" — underserved, low competition

Ø>Ÿ AI PROMPT: YouTube Short Script (60 seconds) — Transformation hook

Write a 60-second YouTube Short script for Aorane Health app.
Topic: "Mein 30 din tak apna Indian khana track kiya — yeh hua"

Script must have:

- 0-5 sec: Visual hook — show before/after body change or health score
- 5-20 sec: The story — what I was doing wrong before
- 20-45 sec: How Aorane helped — show specific features (AI scan, health score, suggestions)
- 45-55 sec: 30-day result — what changed concretely
- 55-60 sec: CTA — download link + comment question

Language: 70% Hindi, 30% English (pure Hinglish)
Tone: Genuine, like a friend sharing advice — NOT salesy
Add: [B-ROLL] suggestions at each point
Add: Thumbnail text suggestion (max 5 words, Hindi or Hinglish)

4. WhatsApp & Telegram Growth (Highest Conversion)

India mein 500M+ WhatsApp users — aapka most powerful B2C channel

4.1 WhatsApp B2C Strategy

WhatsApp Status as Content Channel (Free, No Algorithm)

- Daily health tip WhatsApp Status — short text + image (Canva se 5 min mein banao)
- Food scan result share karo — 'Aaj ka lunch scan: Dosa 280 cal, healthy tha!'
- Countdown status during health challenges — '3 days left to join 7-day clean eating'
- Behind-the-scenes — app development updates, new features preview
- Poll status — 'Aaj kya khao? A) Roti-dal B) Rice-rajma' !' engage and educate

WhatsApp Community Strategy (New WhatsApp Feature)

- Aorane Health Community banao — up to 5000 members
- Sub-groups within community: Weight Loss, Fitness, Family Health, Blood Donors
- Daily health tip at 7AM + evening activity reminder at 6PM
- Weekly health challenges posted in community — screenshot results
- Weekly live Q&A on WhatsApp Community — health questions answer karo
- Community mein link dalte raho YouTube/Instagram content ka

WhatsApp Referral Mechanism (Viral Growth Engine)

- In-app referral: 'Invite a friend !' both get 1 month free Pro trial'
- Referral message pre-written: 'Yaar mein Aorane use kar raha hoon health track karne ke liye. Teri bhi photo scan karta hai. Try karo free mein: [link]'
- Family plan upsell: 'Add family members !' they get free until you upgrade to Family plan'
- Blood donor referral: 'Invite 3 blood donors !' get premium Donor badge on Aorane ID'

4.2 Telegram Channel Strategy

- Telegram channel: 'Aorane Health Daily Tips' — push health content to subscribers
- Daily automated tip (use our own WhatsApp bot to also send to Telegram)
- Exclusive Telegram content: Early access to new features, beta testing invites
- Telegram group for power users — feedback, bugs, feature requests
- Cross-promote: WhatsApp ! Telegram ! Instagram ! YouTube (content repurposing funnel)

👉 AI PROMPT: WhatsApp Health Tip Series — 7-day content calendar (ChatGPT)

Create a 7-day WhatsApp health tip content calendar for Aorane Health app.

Each day's content should include:

1. Main message (max 60 words, Hinglish)
2. Image description (for Canva design brief)
3. 1 engagement hook (question or poll idea)
4. Relevant Aorane feature to mention casually

Topics to cover across the week:

- Monday: Week motivation + health goal setting
- Tuesday: Indian food nutrition fact
- Wednesday: Hydration reminder + science
- Thursday: Exercise tip (Indian context — walking, yoga)
- Friday: Weekend healthy eating guide
- Saturday: Family health tip
- Sunday: Weekly reflection + Aorane score check-in

Tone: Warm, encouraging, like a knowledgeable friend. Hindi-first.

5. Reddit, Quora & Online Communities

Free organic discovery — Indians actively search for health solutions here

5.1 Reddit Strategy (r/india + health subreddits)

Subreddits to be active in		
Subreddit	Size	Strategy
r/india	1.3M members	Indian lifestyle posts — health, food, urban issues. Share stories, NOT ads.
r/bangalore / r/mumbai etc	200K–500K each	City-specific health challenges. Blood donor posts here very viral.
r/IndianFood	180K members	Share nutrition insights from AI scans. Educational posts only.
r/diet	500K members	Indian diet advice posts. Answer questions, mention Aorane naturally.
r/loseit	3.7M members	Weight loss community. Indian-specific tips stand out here.
r/ADHD_India / r/anxiety_india	Small but growing	Mental health + stress content. Aorane's stress tracking fits here.
r/medicaladvice (informational only)	Massive	Never diagnose — share Aorane as tracking tool, not medical device.

- Reddit Post Formats That Work
- Story post: 'I tracked every Indian meal for 30 days — here's what I learned' (long, honest, share results with screenshots)
 - Question answer: 'Asked Aorane AI what's healthiest at McDonald's India — the answer surprised me'
 - Community help: 'Blood type O+ donors in Bangalore needed — Aorane connect kar sakta hai' (genuine, not spammy)
 - Debate starter: 'Is ghee healthier than refined oil? I got AI to analyze — interesting results'
 - NEVER spam or self-promote directly — get banned. Always provide value first, mention Aorane as tool.

5.2 Quora Strategy (High SEO Value)

- High-value questions to answer (search these exact queries)
- "Best health app for Indians" — Answer comprehensively, mention Aorane at end
 - "How to track calories in Indian food?" — Detailed answer + Aorane scan feature mention
 - "Best blood donor app in India 2025" — Direct answer, Aorane is relevant
 - "How to reduce stress naturally India" — Full answer + Aorane stress tracking at end
 - "Corporate wellness companies India" — B2B angle answer + business.aorane.in
 - "Is HealthifyMe worth it?" — Compare objectively, show where Aorane is different
 - "How to maintain health records digitally India" — Aorane ID + health report feature

5.3 Niche Community Platforms

ShareChat / Moj (Hindi users)	Health content in pure Hindi — massive Tier-2 reach, almost no health app competition yet
Josh (Short video)	Same Reels repurposed in Hindi — healthy Indian food content, motivational health
Koo (Twitter alternative)	Health discussions in Hindi — doctors, nutritionists respond here
Facebook Groups (Indian Health)	'Indian Weight Loss Journey' (2M members), 'Healthy India' groups — share posts, answer questions
Discord Servers (Young Indians)	Gaming + study servers — young urban users, surprise health content angle works here
Substack / Newsletter swap	Partner with Indian health newsletters (Healthshots, Possible, etc.) for cross-promotion

6. SEO + Micro-Influencer Strategy (Zero Cost)

Long-term organic growth engine — works while you sleep

6.1 App Store Optimization (ASO) — Must Do First

- Title: 'Aorane: AI Health & Diet Tracker' (keyword-first)
- Subtitle: 'Indian Food Scanner, Blood Bank, Health Score' (3 keyword clusters)
- Description: First 3 lines most important — lead with AI food scan for Indian meals
- Screenshots: Show Aorane ID card (unique), food scan result, health score — in order
- Preview video: 30-sec demo — food scan !' health score !' Aorane ID reveal
- Keywords field: 'indian diet tracker, health app hindi, calorie counter india, blood donor app'
- Ratings: Ask first 100 users explicitly for 5-star review in WhatsApp community

6.2 Micro-Influencer Outreach (Barter/Zero Cost)

Mega influencers cost ₹5-20 lakh per post. Micro-influencers (5K–100K followers) give better ROI for zero cost through barter:

Fitness Micro-influencers (10K–50K followers)

Platform: Instagram, YouTube |

Offer: Free Pro account for 6 months in exchange for 3 honest review posts/reels

Find them: Search '#IndianFitness #FitIndia #IndianDiet' on Instagram — DM top 50 profiles under 50K

Mom bloggers / Parenting accounts

Platform: Instagram, YouTube, Blogs |

Offer: Free Family plan + feature their family story on Aorane social media

Find them: 'Indian mom blogger' on YouTube, '#IndianMomLife' on Instagram

Nutritionists / Dietitians (verified = trust)

Platform: Instagram, Practo listings |

Offer: Free Pro + help them create client tracking system using Aorane

Find them: Search 'nutritionist india' on Instagram, Practo practitioner list

Blood donor NGOs / Community leaders

Platform: WhatsApp, Facebook, Twitter |

Offer: Free platform to manage their blood donor community + social media shoutout

Find them: Sankalp India Foundation, IIT blood donation clubs, NCC, NSS groups

Startup / Tech content creators

Platform: YouTube, LinkedIn, Twitter |

Offer: 'India's first AI health platform' story angle — they love startup stories

Find them: Nikhil Kamath ecosystem content, Wint Wealth audience — educated, urban

👉 AI PROMPT: Micro-Influencer DM Script — Instagram/Email

Write a DM script to send to fitness micro-influencers on Instagram for Aorane Health.

Context:

- They have 15K–40K followers in Indian fitness/health niche
- We want them to try Aorane for free and share honest experience
- We're offering: Free Pro account (₹999/month value) for 6 months

The DM should:

1. Open by acknowledging their specific content (leave a [SPECIFIC CONTENT COMPLIMENT] placeholder)
 2. Be honest about being a startup — not pretend to be big
 3. Explain the barter clearly in 2 sentences
 4. Make the ask super easy (just "try it for free, post if you like it")
 5. Include a soft deadline (5 slots left this month)
- Length: Under 120 words. No marketing buzzwords. Feel like a genuine human message.

7. Viral Campaigns & Challenges (Organic Amplification)

Campaigns jo apne aap share hon — bina ek rupee kharch kiye

7.1 Campaign Ideas (Ready to Execute)		
#AoraneIDChallenge — Share Your Health Passport	Users apna Aorane ID card screenshot share karein Instagram/Twitter pe. 'Mera Health Passport ready hai — tera kab?' Viral because everyone loves showing off unique IDs.	
Flow:	Download ! ' Get unique Aorane ID ! ' Screenshot card ! ' Post with hashtag ! ' Tag 3 friends	Platform: Instagram, Twitter/X
#ScanYourThali — Indian Food Transparency Movement	Daily thali ka AI scan result share karo. 'Aaj ka lunch: 650 cal, 28g protein. Kya lag raha hai?' Creates UGC and positions Aorane as authority on Indian nutrition.	
Flow:	Scan meal ! ' Share result screenshot ! ' Hashtag + tag Aorane ! ' Win weekly prize (free ProPlatform: Instagram Reels, WhatsApp Status month)	
#30DinKiZindagi — 30-Day Health Transformation	30-day public health challenge. Daily app se check-in. Har din ek task (water, steps, scan meals). Weekly community leaderboard. Creates habit + public accountability.	
Flow:	Join challenge ! ' Daily Aorane check-in ! ' Weekly health score milestone ! ' Share wins	Platform: WhatsApp Community, Instagram, YouTube
#BloodHero — Donor Registration Drive	Blood donor registration + awareness campaign. Partner with colleges, NCC, hospitals. 'Register as donor, get Blood Hero badge on Aorane ID.' Emotionally resonant — goes viral naturally.	
Flow:	Register on Aorane ! ' Complete profile ! ' Get Blood Hero verified badge ! ' Share certificate	Platform: Twitter/X, WhatsApp, LinkedIn
#AoraneFamily — Family Health Challenge	Invite family members to track health together. 'Hamare family ne 1 hafte mein 14,000 steps liye — tumhari family ne?' Creates organic word-of-mouth within families.	
Flow:	Create family group ! ' 7-day step challenge ! ' Share family leaderboard screenshot	Platform: WhatsApp, Instagram, Facebook

8. Weekly Content Calendar & Production System

Ek person bhi yeh manage kar sakta hai — 2-3 hours per day

8.1 Weekly Content Schedule				
Day	Primary Platform	Secondary	Community	Outreach
Monday	LinkedIn post (educational, B2B angle)	Instagram Story (health tip)	WhatsApp Status	Email/DM outreach: 10 contacts
Tuesday	Instagram Reel (food scan demo)	YouTube Short upload	Reddit post (r/india or relevant sub)	
Wednesday	LinkedIn carousel (7 slides)	Instagram carousel (repurpose)	Quora answer (2 health questions)	WhatsApp Community tip
Thursday	YouTube Short (health fact)	Instagram Story (poll/Q&A)	Twitter/X thread (3 tweets)	Influencer DM: 5 new
Friday	Instagram Reel (transformation/story)	LinkedIn story post	Reddit comment engagement	Week review + next week plan
Saturday	Behind-the-scenes Story (app update)	WhatsApp Community engagement	Reply to all comments/DMs	Batch create next week content
Sunday	Rest / Batch filming day	Schedule posts for week	Community Q&A	Analytics review

8.2 Content Production System (Solo / 2-Person Team)

Tool Stack (All Free)		
Task	Tool (Free)	Quick Tip
Record	Phone camera (any decent Android/iPhone)	Natural light, simple background
Edit video	CapCut app (free)	Auto captions, trending sounds, speed ramps
Graphics	Canva.com (free)	Pre-made templates — customize with brand colors
Write captions	ChatGPT (free)	Paste our prompts from this PDF
Schedule posts	Meta Business Suite (free)	Schedule Instagram + Facebook posts
Analytics	Instagram Insights (free)	Check top posts, best time to post
Research trends	Instagram Reels trending audio	Use trending audio for +40% reach

8.3 Batch Content Creation System

- Sunday — Batch day. 4-5 Reels script karo, film karo, edit karo — week ka content ek din mein
- 30 Canva templates banao ek baar — phir sirf text/image change karo har post ke liye
- 1 long YouTube video = 5 Shorts + 3 Instagram clips + 2 LinkedIn posts = maximum output
- Repurposing rule: Har piece of content 4 platforms pe 4 formats mein jaye — waste nothing
- User-generated content collect karo — screenshot + story tag = free content

🗨️ AI PROMPT: Batch Content Brief — 1 month Instagram content in one prompt

Act as a content strategist for Aorane Health — AI-powered Indian health app.

Create a 30-day Instagram content calendar with these constraints:

- Budget: ₹0 (no paid ads, no paid creators)
- Team: 1 person, max 2 hours/day for content
- Goal: 1000 followers in 30 days from 0

For each week (7 days), provide:

1. Theme for the week
2. 3 Reels ideas (hook + 3 key points + CTA)
3. 2 Carousel ideas (topic + 6 slide outline)
4. 2 Story ideas (interactive — poll/quiz/Q&A)

Rules:

- All content must be Indian-specific (food, context, language)
- Hinglish is preferred over pure English
- Every Reel must start with a controversial or surprising Indian health fact
- At least 2 pieces per week should mention Aorane naturally (not as an ad)

9. 90-Day B2C Growth Roadmap

Zero se 10,000 users ka realistic plan — platform by platform

PHASE 1: Foundations (Days 1–30) — Build presence, 500 users target

- Day 1-3: Instagram, YouTube, WhatsApp Business account setup + profile optimization
- Day 4-7: Canva se 30 templates banao (10 educational, 10 food scan, 10 motivational)
- Day 8-14: Film 8 Reels in one batch session — food scan demos + health facts
- Day 15: WhatsApp Community launch + invite all contacts manually (50+ seed members)
- Day 16-20: Reddit + Quora accounts setup. First 5 helpful answers on health questions
- Day 21-25: Contact 20 micro-influencers with barter offer. 2-3 confirmations expected
- Day 26-28: #ScanYourThali campaign launch — seed it with your own posts first
- Day 29-30: Analyze first month data. Top 3 performing content types identify karo.
- Target: 500 downloads, 1000 Instagram followers, 300 WhatsApp community members

PHASE 2: Momentum (Days 31–60) — 2,500 users target

- Micro-influencer content goes live — amplify with your own reshares and engagement
- Double down on whatever worked in Phase 1 — data-driven content decisions
- #30DinKiZindagi challenge launch — WhatsApp Community + Instagram
- YouTube channel — first long-form video publish (8-10 min honest review)
- Referral mechanic in-app activate: 'Invite 2 friends !' 1 month free Pro'
- Reddit campaign: Share 30-day transformation story (genuine data from beta users)
- First PR attempt: Submit Aorane story to YourStory, Entrackr, Inc42 (free submissions)
- Target: 2500 downloads, 3000 Instagram, 1000+ WhatsApp community

PHASE 3: Acceleration (Days 61–90) — 10,000 users target

- #AoraneIDChallenge launch — coordinate with micro-influencers to post same day
- Blood Donor campaign — partner with 1 college blood donation club for credibility
- First press release or startup story accepted by YourStory or Inc42
- Paid boost (optional, ₹2000-5000): Boost 1 viral Reel to 22-35 age urban India
- Family plan upsell campaign — 'Invite family, track together' content series
- Corporate angle: Some individual users will be from corporates — offer them org enrollment
- App update announcement campaign — new feature Reel always gets high reach
- Target: 10,000 downloads, 8K Instagram, 3K WhatsApp community, 200 Pro subscribers

9.1 B2C KPIs to Track Weekly

Metric	Month 1 Target	Month 2 Target	Month 3 Target
App Downloads	500	2,500	10,000
Instagram Followers	1,000	3,000	8,000
WhatsApp Community	300	1,000	3,000
YouTube Subscribers	100	400	1,500
Weekly Active Users (WAU)	200	1,000	4,000
Pro Subscribers (paid)	10	50	200
Referral installs	50	300	1,500
UGC posts (#AoraneID etc)	20	100	500

B2C Strategy Summary

Yaad rakhne wali 6 cheezein

Algorithm nahi, human connection target karo

Viral karne ki koshish mat karo — genuine problem solve karo Indian users ke liye. Virality follows.

1

AI food scan = aapka biggest B2C hook

Yeh feature show karo har video mein. 'Indian thali ka AI scan' — koi nahi karta yeh aur yahi aapka moat hai.

2

Hindi mein bolo, dil se bolo

Pure English content India mein Tier-2 tak nahi pohunchta. Hinglish + genuine tone = 3x engagement.

3

Community > Followers

1000 engaged WhatsApp community members > 50,000 passive Instagram followers. Build the community first.

4

Batch banao, consistent raho

Ek viral post nahi chahiye — 30 consistent posts chahiye. Consistency beats virality in long term.

5

B2C users B2B leads bhi hain

Har ek individual user potentially ek HR manager ya company founder hai. Mobile se corporate path.

6
