### What makes AORANE different for you:

Ø<ßq Knows Indian food — dal, roti, biryani, idli — all calculated with exact nutrition

Ø>Ÿ NVIDIA AI coach that learns YOUR patterns — not generic advice

Ø=Ü– WhatsApp health bot — log food by just chatting (coming soon)

Ø=Ÿ Privacy first — your health data is yours, never sold, never shared

Ø<Ÿ~ Blood emergency — find donors near you in seconds when you need it most

Ø<ßå Medical report scan — upload your blood test, AI explains it in simple language

# 01. WHY YOU NEED AORANE

India's health reality — and how Aorane solves it

Every Indian deserves access to intelligent health guidance — not just the wealthy who can afford nutritionists, personal trainers, and doctors. Aorane puts the power of AI, medical knowledge, and personalized health coaching in your pocket for less than a cup of coffee per day.

77%

Indians eat without knowing calories

60%

Lifestyle diseases are preventable

175K

Avg annual doctor cost per family

1149

Aorane starts at per month

## The Problem with Current Options

| Current Approach         | What's Missing                                                        |
|--------------------------|-----------------------------------------------------------------------|
| Manual food diary        | Takes too long, no calorie calculation, quits within a week           |
| Gym membership           | Only exercise — no nutrition, no stress tracking, no AI coach         |
| YouTube fitness channels | Generic advice — doesn't know your height, weight, or medical history |
| Nutritionist visit       | 1,500-3,000/session — unaffordable for most, no daily tracking        |
| Other health apps        | English-only, no Indian foods, no WhatsApp, too complicated           |

## Aorane Gives You All Of This in One Place

AI food planning that knows dal, makhani, and masala dosa, not just generic "eat healthy" advice. Daily health monitoring for blood pressure, cholesterol, and more. Personalized nutrition plans for every Indian dish. Family health monitoring for kids, parents, and grandparents. Affordable nutritionists and personal trainers. All in one place, all in Hindi.

## 02. EVERY FEATURE EXPLAINED

What Aorane does for you — in simple language

### AI Food Scanner — Know What You Eat

Photograph any meal — home-cooked or restaurant. Gemini AI identifies every ingredient and gives you exact calories, protein, carbs, fat, and fiber. Also works with voice: just say "khana" and describe your meal. 500+ Indian dishes in the database.

### Exercise Tracker — Calories Burned Accurately

300+ exercises from yoga and brisk walking to weightlifting and Zumba. Uses MET (Metabolic Equivalent of Task) — the same science used by hospitals. Enter your weight + duration !' get precise calorie burn. Photo and voice input supported.

### AI Daily Coach — Your Personal Health Advisor

Every morning, NVIDIA's Llama 3.3 70B model reads YOUR last 7 days of data and gives you a personalized health brief. "Aaj protein kam tha — egg ya paneer add karo." Not generic advice — advice for YOU.

### Medicine Reminder — Never Miss a Dose

Add your medicines with timing — morning BP tablet, evening diabetes medicine, night thyroid pill. Aorane sends reminders. Tracks whether you took it or skipped. Family members can be notified if elderly parent misses medicine.

### Stress Tracker — Mental Health Matters

Daily PSS (Perceived Stress Scale) check-in. Mood and energy logging. Burnout risk score. 4-7-8 breathing exercise built in to calm you instantly. Weekly stress trends. Early warning if you're heading toward burnout.

### Health Score — One Number for Your Wellness

Composite daily score (0-100) based on: Food quality (35%), Hydration (30%), Exercise (25%), Medicine adherence (10%). Grade A to D. Compare your score week-over-week. See which habit is pulling your score down.

### Medical Report Scanner — AI Reads Your Blood Test

Upload a photo of your blood test report, prescription, or X-ray. AI extracts values, explains what's normal vs abnormal in simple Hindi/English, and suggests what to discuss with your doctor. Stored securely.

### Blood Emergency — Life-saving When It Matters

Create an SOS request for blood. The app finds donors within 50km radius instantly. Also register as a donor yourself. Could save your own family member's life. Only platform with this built into a health tracking app.

### Water Tracker + Wearable + Period Tracker

Log water intake with one tap. Connect Google Fit to sync steps, heart rate, and sleep. Period tracker with cycle prediction, fertile window, and symptom logging. Complete health — physical, mental, reproductive.

### 03. WHAT'S COMING SOON

Features launching in the next 3 months — included in your plan

#### WhatsApp Health Bot

Log "lunch mein dal rice 1 plate" on WhatsApp — bot logs it, tells you calories, reminds you for dinner. Weekly report on WhatsApp every Sunday. No app open needed.

#### Packaged Food Barcode Scanner

Scan the barcode on any Maggi, biscuit, juice, or chips — nutrition data loads instantly from FSSAI database. No manual typing.

#### Weekly Health Reports

Every Sunday, get a full week summary — calories, protein, exercise minutes, stress trend, AI insight — on WhatsApp and email automatically.

#### Diet Chart Generator

Tell Aorane your goal (weight loss, muscle gain, diabetes management) — get a 7-day Indian meal plan with roti, dal, sabzi, breakfast ideas. Scientifically designed.

#### Doctor & Dietitian Connect

Book verified Indian dietitian consultation directly from app. They see your health data — no need to explain from scratch. Affordable 30-min video call.

### 04. PRICING PLANS

Start free. Upgrade when you're ready. Cancel anytime.

| Plan    | Price      | AI Scans  | Reports          | WhatsApp Bot | Family Members |
|---------|------------|-----------|------------------|--------------|----------------|
| Free    | ₹0/month   | 5/month   | Basic only       | 'L           | 1 (yourself)   |
| Basic   | ₹149/month | 20/month  | Weekly           | 'L           | 1 (yourself)   |
| Premium | ₹499/month | Unlimited | Weekly + Monthly | ' Included   | 3 members      |
| Max     | ₹999/month | Unlimited | Full reports     | ' Priority   | 5 members      |

#### What is the Real Cost?

Premium plan at ₹499/month = ₹16.63/day. For comparison:

| Daily Expense                       | Monthly Cost       | Health Value                            |
|-------------------------------------|--------------------|-----------------------------------------|
| Aorane Premium                      | ₹499/month         | AI coach + full tracking + WhatsApp bot |
| 1 Gym visit/week                    | ₹1,200-3,000/month | Only exercise, no nutrition tracking    |

## Real User Stories — Who Uses Aorane

### Priya, 28, Software Engineer, Bengaluru

"I was gaining weight from sitting all day and ordering Swiggy every night. Aorane showed me I was eating 2,800 calories daily (my goal is 1,800). Within 2 months of tracking, I lost 6kg — no gym, just awareness."

### Rajesh, 52, Diabetic Patient, Delhi

"My HbA1c was 8.2. Aorane's AI diet plan helped me reduce carbs systematically. Medicine reminders ensured I never skipped. 3 months later, HbA1c is 6.8. Doctor was surprised."

### Meera, 34, Working Mother, Mumbai

"I use Aorane for my whole family. My father's blood pressure medicines are on reminder. My son's nutrition is tracked. I track my own stress levels. One app for everyone."

# 06. YOUR PRIVACY IS SACRED

DPDP Act 2023 compliant — your health data is 100% yours

| Privacy Feature       | Aorane Guarantee                                                                      |
|-----------------------|---------------------------------------------------------------------------------------|
| Data Storage Location | All data stored on India servers (Supabase India region). Never leaves India.         |
| Data Selling Policy   | NEVER sold to anyone. No advertisers, no insurance companies, no government.          |
| Third-party Sharing   | Zero. Your food logs, stress scores, medicine data — seen by nobody but you.          |
| 8 Privacy Controls    | Turn off tracking for Stress, Sleep, Medicine, Location, Activity data independently. |
| Right to Delete       | One button in settings — delete all your data permanently, forever, instantly.        |
| Encryption            | 256-bit AES encryption at rest, TLS 1.3 in transit. Same as banking apps.             |
| Login Security        | OTP-based login (no password to steal). Optional PIN for quick access.                |
| DPDP Act 2023         | Full compliance with India's Digital Personal Data Protection Act 2023.               |

## How to Get Started — 3 Minutes

|        |                                                                    |
|--------|--------------------------------------------------------------------|
| Step 1 | Download AORANE free from Play Store (Android)                     |
