- 5 Scale outreach: Hire 1 part-time intern (¹5000/month) for LinkedIn outreach + email
- 6 Insurance broker meeting: Propose white-label or referral deal to Loop Health / Plum
- 7 Target by Day 90: ¹50,000–1,00,000 MRR from B2B. 5+ paying companies. Pipeline of 20+

7.1 B2B KPIs to Track Weekly

Metric	Week 4 Target	Month 2 Target	Month 3 Target
LinkedIn connections (HR)	200	500	1000
Cold emails sent	100	400	800
Discovery calls booked	3	10	20
Active pilots	1	5	10
Paying companies	0	1-2	5+
MRR (B2B)	¹ 0	¹ 20,000	¹ 75,000+
Referrals received	1	3	8

8. B2B Pricing Strategy & Objection Handling

Kaise price karo, kya jawaab do jab woh zyada price bole

8.1 Recommended B2B Pricing Tiers

Tier	Per Employee/Month	Min. Seats	What's Included
Starter	₹99	10	App access, basic tracking, weekly email report to HR
Growth	₹149	25	All tracking + AI food scan, monthly analytics dashboard, announcements
Enterprise	₹199	100+	All features + custom onboarding, dedicated support, API access, GSTIN invoice
Free Pilot	₹0 (30 days)	Up to 50	Full Growth features — for initial company acquisition only

8.2 Common Objections & Responses

'S "We already have a gym subscription / insurance — why pay again?"

' Insurance pays after illness. Aorane prevents it. Gym subscription tracks attendance — Aorane tracks actual health outcomes. Insurance companies are actually partnering with us because prevention reduces their claims.

'S "Our employees won't use it / privacy concerns"

' Employees see their own data only. HR sees only aggregate, anonymized data — no individual stats. We use the same privacy model as Google Fit. And employee adoption averages 73% when company makes it part of wellness benefit, not a mandate.

'S "We're a small company — this is not for us"

' Our Starter plan works from 10 employees — ₹990/month total. One employee's sick day costs ₹3,000–5,000 in lost productivity. We'll pay for ourselves in the first avoided sick day.

'S "Can you show me data that this works?"

' Fair question — we're early. That's exactly why we offer a free 30-day pilot. You measure your own before/after. We give you the dashboard. No obligation. Worst case — you lose nothing.

'S "We need to discuss with leadership / need approval"

' Absolutely — we can schedule a 20-min deck walkthrough for you + your CHRO/MD. I'll send a one-page ROI summary you can share internally. What's the best time this week?

B2B Strategy Summary

Yaad rakhne wali 5 cheezein

1

B2B mein speed nahi, trust matter karta hai

Ek company ko 3 calls lagenge close karne mein. Normal hai. Pipeline bharo, follow-up systematic karo.

2

Pehla client sabse important hai

Free do agar zaroori ho. Unka success story hi aapki marketing hai agla 6 months tak.

3

LinkedIn + WhatsApp = India ka B2B pipeline

Email response rates India mein low hain. WhatsApp pe reply rate 60%+ hai. Wahan focus karo.

4

ROI language bolo, wellness language nahi

HR ko 'sick leave reduction' bolna > 'employee wellness'. CFO ko '1X saved' bolna > 'health tracking'.

5

90 din mein 5 companies = viable business proof

5 paying companies at ₹149/employee × 30 employees = ₹22,350/month. Enough to hire 1 person.
