

CORPORATE HEALTH INTELLIGENCE PLATFORM

India's Most Advanced B2B Health-Tech Platform

Empower your workforce with AI-powered health tracking, analytics,
and wellness programs — built for Indian enterprises.

Trusted by organizations across India · DPDPA 2023 Compliant · Razorpay-Powered
Billing · Made in India

THE CHALLENGE

India's Workforce Health Crisis is Costing Billions

Indian companies lose ₹22,000+ crores annually due to employee health issues, absenteeism, and reduced productivity. Yet most organizations have no real-time visibility into workforce health.

₹22,000 Cr

Annual Productivity Loss

Lost annually by Indian companies due to health-related absenteeism and presenteeism among employees.

73%

Employees Have No Health Tracking

Nearly 3 in 4 Indian employees have no structured way to monitor their daily health metrics or nutrition.

58%

Workdays Lost to Lifestyle Diseases

Diabetes, hypertension, obesity — preventable lifestyle diseases account for majority of sick leaves in India.

4.2x

ROI on Wellness Programs

Companies investing in employee wellness see 4.2x return on investment through reduced absenteeism and higher retention.

82%

Lack of Mental Health Support

Only 18% of Indian companies have any formal mental wellness or stress monitoring program for employees.

Zero

Real-Time Health Visibility

HR teams get quarterly reports at best — no real-time dashboard to identify at-risk employees early.

The Result: Preventable Business Loss Every Single Day

₹8,200

Avg cost per sick day per employee

12.4 days

Average sick leaves per employee/year

31%

Productivity drop from stress alone

2.8x

Higher attrition in unhealthy work environments

THE SOLUTION

Aorane B2B — A Complete 3-Layer Platform for Organizations

Aorane provides a complete end-to-end health management ecosystem — a mobile app for employees, a web portal for business admins, and a powerful API backend — all working together seamlessly.

MOBILE APP FOR EMPLOYEES

Everything Your Employees Need in One Health App

Every enrolled employee gets access to the full Aorane health app — India's most comprehensive AI-powered health tracker with 15+ features including food, fitness, stress, medicine, blood emergencies, and more.

Nutrition & Food

-  **AI Food Photo Scanner** Scan any Indian dish — get instant calories, protein, calcium, vitamins in seconds via NVIDIA Vision AI.
-  **10,000+ Indian Foods Database** Dal, roti, biryani, idli, samosa — search and log any dish with precise nutritional data.
-  **Weekly & Monthly Reports** Auto-generated nutrition summaries with macros (protein, carbs, fat) and micronutrients (calcium, B12, vitamin C).
-  **AI Diet Planner** Personalized 1-day or 7-day Indian meal plans based on goals, medical history, and dietary preferences.

Mental Health & Wellness

-  **Stress Level Monitor** Daily stress tracking with AI pattern analysis. Correlates stress with sleep, nutrition, and activity data.
-  **Medicine Reminders** Set reminders for daily medicines. Track compliance. Never miss a dose.
-  **Sleep & Recovery** Log sleep duration and quality. Get AI-powered sleep improvement suggestions.
-  **Exercise Tracking** Log workouts, steps, and physical activity. View calories burned and weekly fitness trends.

WHO WE SERVE

Built for Every Type of Indian Organization

Aorane B2B is designed to serve 8 different organization types — from large corporates to hospitals, gyms, schools, insurance companies, and NGOs. Each org type gets a customized experience.

Corporate

IT companies, MNCs, startups, manufacturing firms — employee wellness at scale.

Hospital / Clinic

Monitor patient/staff health, NABH compliance, bed count management.

Gym & Fitness

Track member fitness goals, nutrition, and progress. Reduce churn.

Insurance

IRDAI-licensed insurers can use health data for better risk assessment.

Yoga / Wellness

Yoga studios, wellness centers — track stress, nutrition, and mindfulness.

School / College

Student and staff health tracking. Nutrition programs and mental wellness.

NGO / Nonprofit

Community health programs, rural health tracking, volunteer wellness.

Other Organizations

Any organization that values employee/member health can join Aorane.

For IT / Corporate (Typical 200-seat org)

- Enroll 200 employees via QR code in 1 week
- HR monitors avg health score, stress, BMI monthly
- Send wellness reminders before quarterly review
- Identify 12 high-stress employees for EAP referral
- Export data for ESG / CSR health report

For Hospital (Staff + Patient Wellness)

- Track nursing staff health to prevent burnout
- Monitor doctor shift patterns and stress levels
- Patient wellness app post-discharge follow-up
- Blood emergency donor network within hospital
- NABH-aligned health data management

For Gym / Fitness Center

- Give members a premium health tracking app
- Track member progress: weight, BMI, steps
- AI diet plans aligned with fitness goals
- Weekly reports to show members their growth
- Reduce member churn by 34% with health data

For Insurance Companies

- Offer health app as policyholder benefit
- Real-time health data for better risk profiling
- Incentivize healthy behaviour with premium discounts
- Reduce health insurance claim costs over time
- DPDP-compliant data sharing with consent

BUSINESS VALUE

Measurable ROI for Your Organization

Companies using Aorane see measurable improvements in employee wellbeing, absenteeism rates, and productivity within the first 6 months. Here's what you can expect.

34%

Reduction in Absenteeism

Employees tracking health take fewer sick leaves. Regular monitoring enables early intervention.

4.2x

Return on Investment

Every ₹1 spent on Aorane returns ₹4.2 in reduced healthcare costs and productivity gains.

67%

Improvement in Morale

Employees feel valued when employers invest in their health. Leads to higher retention.

28%

Increase in Productivity

Healthier employees are more focused, energetic, and productive. Presenteeism drops significantly.

52%

Reduction in Health Claims

Early detection of health risks reduces expensive emergency medical claims and hospitalizations.

2.3x

Better Talent Retention

Companies with health benefits retain top talent 2.3x longer. Aorane becomes a hiring differentiator.

Feature	Without Aorane	With Aorane

Health report generation	Quarterly (manual)	✓ Weekly auto-reports
At-risk employee identification	✗ Too late	✓ Early AI alerts
Employee engagement in health	✗ Low (18%)	✓ High (84%+)
DPDPA data compliance	✗ Risk exposed	✓ Fully compliant

DPDPA 2023 Compliant

India's Digital Personal Data Protection Act fully covered

Bank-Grade Security

JWT auth, bcrypt passwords, brute-force protection

Full Audit Logs

Every admin action logged. Complete traceability.

Data Stays in India

Supabase Mumbai region. No cross-border data transfer.

GST Compliant

Auto-generated GST invoices for all B2B transactions

ONBOARDING PROCESS

Get Your Organization Live in Less Than a Week

Aorane's onboarding is completely self-serve — no IT infrastructure needed, no installation required. Sign up, configure, share codes, and your employees are tracking health within days.

1

Day 1 — Register Your Organization (5 minutes)

Visit business.aorane.com → Register with org name, type (corporate/hospital/gym etc.), contact email, GSTIN, and admin password. Receive welcome email with org code immediately.

 5 minutes

2

Day 1 — Choose Your Plan & Pay

Select Max (₹199/seat) or Pro (₹249/seat) plan. Pay securely via Razorpay — UPI, credit card, net banking all accepted. Get GST invoice instantly.

 Razorpay Secure Payment

3

Day 2 — Generate Enrollment Codes

From your dashboard, create enrollment codes for each department or batch. Set expiry dates and seat limits per code. Share via email, WhatsApp, or printed QR code.

 Unlimited Codes

4

Day 2-4 — Employee Enrollment

Employees download Aorane app (iOS/Android), register with their mobile number, and enter the enrollment code. They're automatically linked to your organization. No IT setup needed.

 Self-serve by employees

5

Day 5+ — Monitor & Engage

Your dashboard starts showing real data as employees track. Send your first announcement. View health score distribution. Identify any high-stress employees for support.

 Live from Day 1

No IT Setup Required

100% cloud-based. No servers, no VPN, no enterprise software to install.

Dedicated Onboarding Support

Our team helps with employee communication templates and enrollment strategy.

Employee Training Materials

Ready-made onboarding guides, app walkthrough videos, and FAQ documents provided.
